Easton Public Library

Dear Community Member,

We invite you to join the Community Assets Network (CAN), an organization of more than 100 professionals in the area who connect with Easton and Redding students to provide valuable personal contacts.

As an asset in our network, you can inspire our young people by becoming a career speaker or mentor, or by offering volunteer sites, internships, and job shadowing experiences. An added benefit of the network will be the ability to collaborate with other assets.

We encourage you to consider donating your time, talents, and energy to this worthy project. In doing so, you will be greatly enriching the lives of our students, as well as giving them countless opportunities to build their career skills.

Connect for the future! Become a community asset by registering at er-CAN.org. We welcome your questions and suggestions. Please contact us at CAN@er9.org.

We look forward to working with you!

Best regards,

Community Assets Network Task Force
